● 0–39 Critical ● 40–69 Needs work ● 70–100 Optimal

VERDICT

They find you, but rarely cite you.

efence | **AEO**

AEO Assessment result · Evaluated across 4 answer engines · 24 questions · response coverage is not verified

What matters most today

MAIN GAP · CITATION QUALITY 32/100

● Critical

They mention you, but don't cite you.

32% of answers with a citation point to your site. The most cited source is g2.com (third party, 18 of 45 citations).

Priority plan

Moves prioritized according to the gaps in this report.

- 1

Earn credible citations ● Critical

Earn trustworthy third-party mentions through digital PR and keep your own sources fresh.

[.ll](#) Moves Citation quality · today 32/100 · 15% of the score

- 2

Own your category ● Needs work

Publish a category explainer, a comparison page and profiles on third-party directories.

[.ll](#) Moves Category ownership · today 54/100 · 15% of the score

- 3

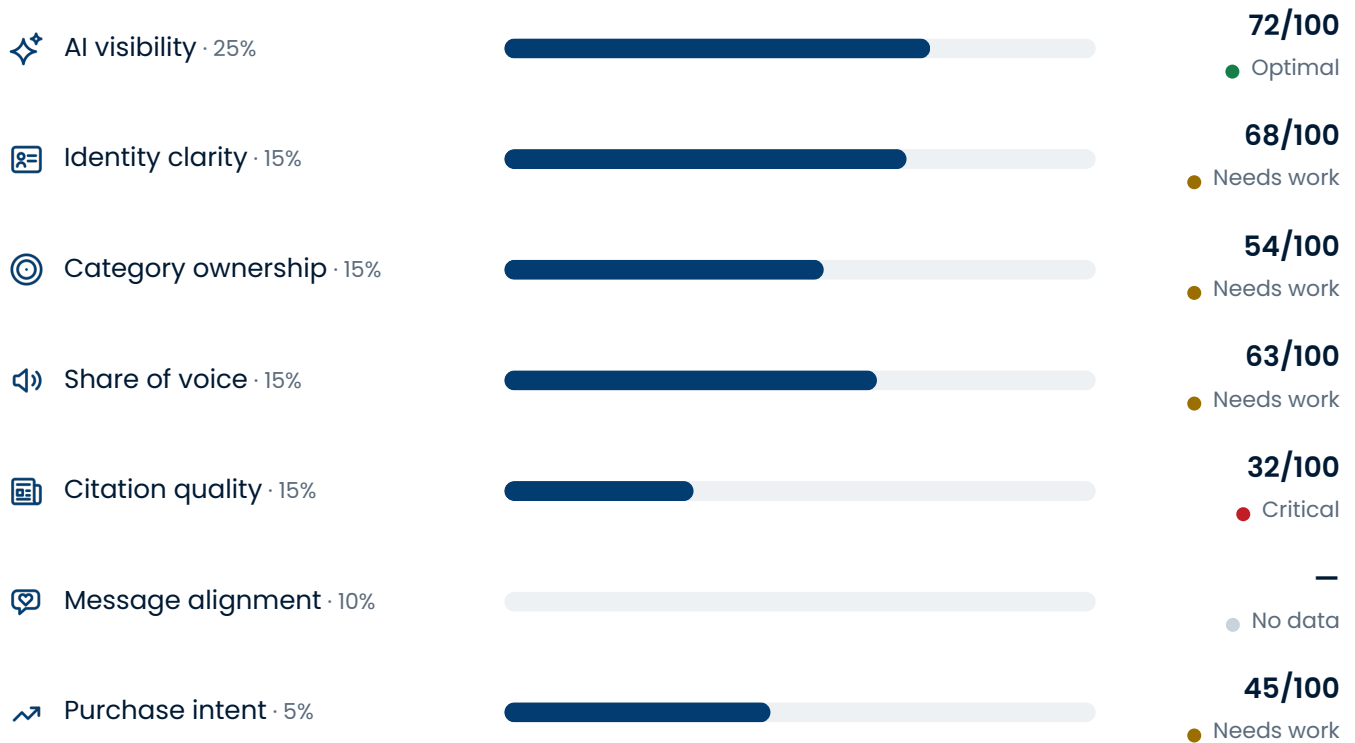

Cover purchase intent ● Needs work

Add pricing, implementation and use-case content, with proof.

[.ll](#) Moves Purchase intent · today 45/100 · 5% of the score

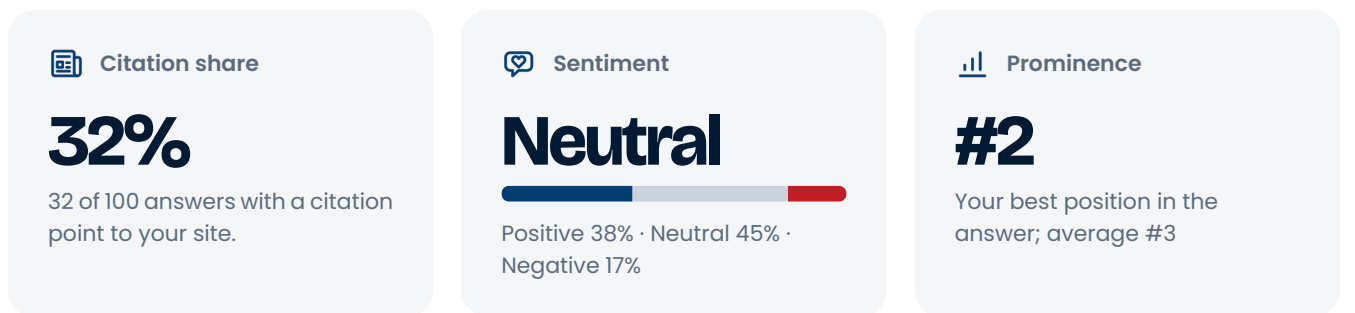

Seven dimensions, weighted

Each dimension adds to the score by its weight; severity uses the same scale as the cover.

Presence quality

Showing up is not enough: what matters is whether they cite you, how they describe you and where.

Levels to exist on an agentic web

Perception · do they mention you? (levels 01, 02, 03 and 05)

Operability · can they use you? (04)

 Level 01 · Perception Be Found Do you exist for AI?	72 Optimal
 Level 02 · Perception Be Readable Can it read you without guessing?	51 Needs work
 Level 03 · Perception Be Correct Is what it says about you true?	No data
 Level 04 · Operability Be Actionable Can they use you, not just cite you?	Not measured yet
 Level 05 · Perception Be Intrinsic Are you the default?	59 Needs work

Engine by engine

Where presence drops most: Perplexity (58%) · Claude (71%).

 ChatGPT		75% 18 of 24
 Claude		71% 17 of 24
 Gemini		79% 19 of 24
 Perplexity		58% 14 of 24
 Google AI Overview		Not evaluated

Share of voice

Your share of mentions against other brands (144 mentions in total).

Sources behind the answer

The domains engines cite in the sample (45 citations).
